BUNTINGS'

1952
Edition

*Better Fruits
and Flowers*

NEW YORKER

(Plant Patent No. 823.)
A truly red Rose! Scarlet with
rose-red undertones, overlaid
with rich velvety sheen. Long
lasting and wonderfully fra-
grant. Price: \$2.00 each; 3
for \$5.25.

PEACE

(Plant Patent No. 591.) 1946 AARS Winner. Giant, many-petaled
blooms of glowing yellow etched with pink. Color changes from can-
ary-yellow, to pale golden, to iridescent cream. Petals are edged
with apple-blossom-pink that deepens as the flower slowly opens.
Healthy, vigorous grower, continuously in bloom. Price: \$2.50 each;
3 for \$6.60.

Fashion

**A GAY NEW COLOR
FOR YOUR ROSE GARDEN**

(Plant Patent No. 789.) Considered the finest Floribunda Rose ever created. Oriental red buds open gradually into exquisite miniature Hybrid Teas of luminous coral-pink suffused with gold. The open flower discloses wavy petals and golden yellow stamens. Delicately fragrant. Blooms are long lasting, and the plant is hardy and vigorous. A 1950 AARS Winner. **Price: \$2.00 each; 3 for \$5.25.**

MIRANDY

(Plant Patent No. 632.) 1945 AARS Winner. Big long pointed buds of deep rich red with black shadings which open into lovely Chrysanthemum-red blooms produced on healthy free branching vigorous plants. Exceptionally fragrant. **Price: \$1.75 each; 3 for \$4.65.**

Mirandy

SUTTER'S GOLD

(Plant Patent No. 885.) 1950 AARS Winner. Beautiful long pointed yellow buds shaded with orange and red open into richly colored high centered blooms. Long stemmed and very fragrant. **Price: \$2.25 each; 3 for \$6.00.**

Sutter's
Gold

Taffeta

TAFFETA

(Plant Patent No. 716.) Produces many long stemmed perfectly formed fragrant buds in rich pink and salmon shades with frilled delicately veined petals. A 1948 AARS Winner. **Price: \$1.75 each; 3 for \$4.65.**

America's favorites that Capture the Prizes

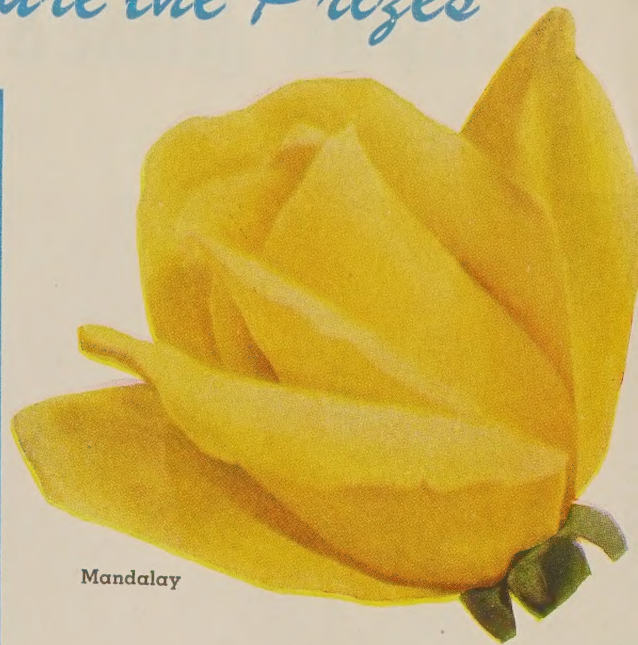

Pinocchio

*A New and Lovely
Floribunda Bush
Rose*

Pinocchio

(Plant Patent No. 848.) Extremely hardy, very easy to grow, always in bloom, with hundreds of flowers on every bush setting the entire plant aglow with gay harmony. The winsome buds are rich appealing salmon, flushed with gold at the base, gradually changing to soft clear pink. Unrivalled for boutonnières. **Price: \$1.50 each; 3 for \$3.90.**

Mandalay

MANDALAY

(Plant Patent No. 775.) Largest of all yellow Roses. The long pointed bud unfolds into a very large high centered bloom of clear pure gold. Always in bloom, always outstanding. **Price: \$2.00 each; 3 for \$5.25.**

CHARLOTTE ARMSTRONG

(Plant Patent No. 455.) Lovely long carmine-red buds with perfect streamlined form and magnificent open blooms of rich cerise. Extremely vigorous, long stemmed, slightly fragrant. A favorite Rose in thousands of Rose gardens throughout the country. **Price: \$2.00 each; 3 for \$5.25.**

Charlotte
Armstrong

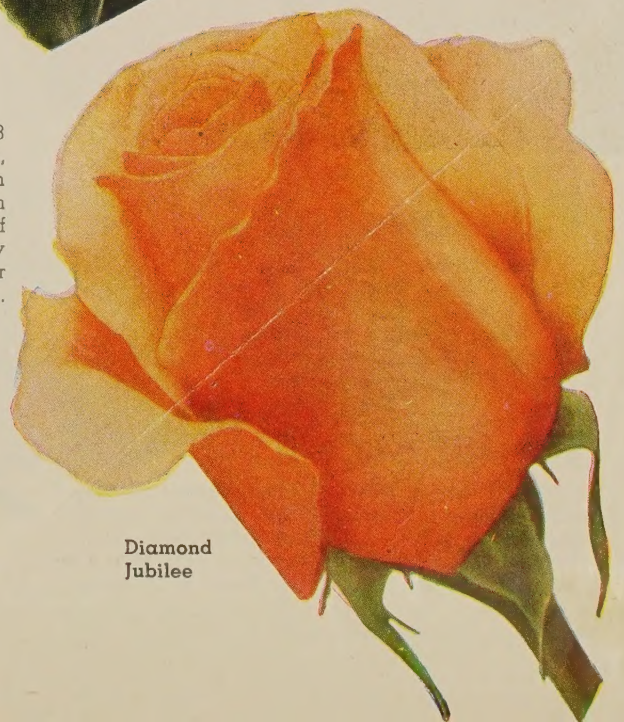

RUBAIYAT

(Plant Patent No. 758.) AARS Winner for 1947. A long, graceful, brilliant red bud, which opens slowly, disclosing deep crimson color in the heart of the bloom, accented by the outside of the petals which are several shades lighter. Both buds and flowers are extra large and deeply fragrant. **Price: \$1.75 each; 3 for \$4.65.**

Rubaiyat

DIAMOND JUBILEE

(Plant Patent No. 824.) 1948 AARS Winner. Large, double, high centered flowers; warm glowing buff-orange with a touch of orange-yellow at the base of each petal. Flowers open slowly and last exceptionally well either on the bush or as cut flowers. **Price: \$2.00 each; 3 for \$5.25.**

Diamond
Jubilee

DELUXE ROSES

All Patented Varieties

Ernie Pyle

ERNIE PYLE

(Plant Patent No. 673.) Dedicated to the memory of Ernie Pyle at the 1945 Festival of Roses, this glowing new flower has been generously admired and acclaimed. Warm rose-pink flowers of great size and unusually abundant fragrance. **Price \$1.75 each; 3 for \$4.65.**

Forty-Niner

FORTY-NINER

(Plant Patent No. 792.) AARS Winner for 1949. Probably the most brilliantly colored bi-color Rose yet introduced. Delightfully formed buds, opening into large, well shaped flowers. Inside face of the petals is a vivid Orient-red; the outside of the petals is a rich straw-yellow. **Price: \$2.00 each; 3 for \$5.25.**

Crimson Glory

CRIMSON GLORY

(Plant Patent No. 105.) Beautifully formed blooms of deep vivid crimson are held erect on vigorous plants. The buds, deep red with an almost black tip, are urn-shaped and gradually unfold into full, high centered blooms of perfect form. Richly fragrant. **Price: \$1.75 each; 3 for \$4.65.**

SUNSET GLORY

(Plant Patent No. 738.) Golden yellow buds are suffused with soft pastel pink, opening slowly into golden yellow blooms, overlaid with dusty rose-pink, bringing to your garden all the warmth and color of an autumn sunset. **Price: \$1.75 each; 3 for \$4.65.**

Sunset Glory

ECLIPSE

(Plant Patent No. 172.) The "Streamline Rose". Distinctive, sleek, tapering buds. Best national all-purpose yellow. An abundant bloomer. The flowers are produced on long, erect stems, excellent for cutting or for boutonnières. **Price: \$1.75 each; 3 for \$4.65.**

ROSES - Hybrid Tea - Climbing - Dwarf

Hybrid Tea Roses

BETTY UPRICHARD. Deep toned carmine with coppery orange blend; interior mostly delicate salmon-pink.

Climbing Pink Radiance

CONDESA DE SASTAGO. Two-toned, coppery pink inside, golden yellow outside. Delicately perfumed, vigorous grower.

Primrose

EDITOR McFARLAND. Clear brilliant pink. Perfect form; long lasting when cut.

POINSETTIA. Bright unfading Poinsettia-scarlet, long pointed perfect buds, large double flowers. A good grower and fine as a cut flower.

RED RADIANCE. Large, globular flowers of bright rosy red, constantly in bloom. Very popular.

SOUV. DE. CLAUDIUS PERNET. Strong, sunflower-yellow, even deeper toned at center. Large flowers; buds long and pointed. Vigorous growing bush with brilliant foliage.

TALISMAN. A multi-colored Rose of orange-yellow and rose-red; a favorite variety.

Paul's Scarlet

CLIMBING AND PILLAR ROSES EVERBLOOMING

- Cl. **Caledonia.** Large, white, double flowers.
- Cl. **Condesa de Sastago.** Fiery copper to rich gold.

Perkins

General
MacArthur

McGredy's
Yellow

HYDRANGEA Otaksa. Large blue or pink blooms in midsummer (color depending upon soil acidity). Either color most attractive. Very popular. **Price:** Strong, 2-yr. plants, \$1.50 each.

BUNTINGS' Garden SHRUBS

DEUTZIA, Pride of Rochester. Blooms in May, large double flowers. **Price:** 1½ to 2 ft., 85c each; 2 to 3 ft., \$1.00 each.

FLOWERING QUINCE (Cydonia japonica). Literally covered with brilliant double scarlet blossoms in early spring. **Price:** 15 to 18 in., 85c each; 18 to 24 in., \$1.00 each.

ALTHEA (Rose of Sharon). Upright, very hardy. Color spot of the fall; begins blooming in early summer and continues through the fall months. Your choice of red, white, pink or blue. **Price:** 1½ to 2 ft. plants, 85c each; 2 to 3 ft., \$1.00 each.

Landscape Your Grounds

It's Smart Business
Increase
Real Estate Values

Be your own landscape architect. Start this spring with a definite planting plan. Get your trees in, your lawn started, hedges and shrubs planted. Here is a good vigorous beginning that by the end of the summer will give you a grand and glorious sense of achievement.

Clever, artistic landscaping has brought a marvelous transformation that you could scarcely believe possible a few months earlier.

Hydrangea P. G.

Spirea
Van Houttei

SPIREA VAN HOUTTEI. Sometimes called the "Improved Bridal Wreath." A medium sized shrub covered in late May and June with pure white flowers. Foliage is dark green and fine textured. **Price:** 18 to 24 in., 85c each; 2 to 3 ft., \$1.00 each.

HYDRANGEA P. G. Pyramids of creamy white flowers which are tinged with pink in late summer. **Price:** 18 to 24 in., \$1.00 each; 2 to 3 ft., \$1.25 each.

HONEYSUCKLE, Tartarian Pink. A profusion of lovely flowers make a delightful contrast with bright green leaves. **Price:** 18 to 24 in., 85c each; 2 to 3 ft., \$1.00 each.

Honeysuckle

FORSYTHIA FORTUNEI (Golden Bell). Their bright masses of golden yellow appear in April before any foliage; vigorous grower. Price: 1½ to 2 ft., 85c each; 2 to 3 ft., \$1.00 each.

SWEET SHRUB (*Calycanthus floridus*). Sometimes called the Strawberry Shrub. A widely cherished, old-fashioned plant. Neat, compact, with large leaves and small double blossoms of dark mahogany color with rare fragrance. Blooms in May and June with a few blossoms from time to time during the summer. Price: 1½ to 2 ft., \$1.00 each.

DWARF CRIMSON SPIREA. Very dense growing plant, with clusters of rose-pink flowers all summer. Price: 15 to 18 in., \$1.00 each; 18 to 24 in., \$1.25 each.

WEIGELA Rosea. Remarkably showy trumpet-shaped flowers of brilliant pink in June and July. Price: 1½ to 2 ft., 85c each; 2 to 3 ft., \$1.00 each.

WEIGELA, Eva Rathke. Dark reddish green foliage; attractive, deep carmine flowers throughout summer and fall. Price: 1½ to 2 ft., \$1.00 each; 2 to 3 ft., \$1.25 each.

KERRIA. A rather tall, erect shrub bearing bright yellow, double flowers throughout the summer. Valued in wintertime for its bright green stem. The foliage is deep green above and pale below. Price: 18 to 24 in., \$1.25 each.

Coralberry

CHARMING BUTTERFLY BUSH. A glorious new shrub bearing throughout the late summer elegant long sprays covered with lovely lavender-pink blossoms. Price: 18 to 24 in., 85c each; 2 to 3 ft., \$1.00 each.

SPIREA Billiardii. Erect, sparsely twigged branches, crowned with dense spikes of rose-pink flowers from July to September. Price 1½ to 2 ft., 85c each; 2 to 3 ft., \$1.00 each.

ALMOND, Pink Flowering. A beautiful small shrub, bearing an abundance of small, double, rose-like flowers, closely set upon twigs, before the leaves appear in early spring. Price: 1½ to 2 ft., \$1.00 each; 2 to 3 ft., \$1.25 each.

Buntings'

SHRUBS

for Smart and Modern Landscaping

BEAUTYBUSH (*Kolkwitzia amabilis*)

A hardy, long-lived shrub that is very shapely and attractive. Graceful, drooping branches are completely covered with lovely pink blossoms in the spring. Desirable for either specimen or group planting. **Price: 1½ to 2 ft., \$1.25 each.**

CRAPE MYRTLE

Spring planting only. A strong growing shrub, adapting itself to almost any soil and condition except in the northern sections where temperatures often drop below zero. Does very well south of Philadelphia. Leaves bright green; the blooms are large panicles of crinkled little florets. Blooms late July and August. Colors: pink or red. **Price: 2 to 3 ft. plants, \$1.50 each.**

HYDRANGEA, HILLS OF SNOW (*Hydrangea A. G.*)

Known for its profusion of round snow-white blooms which appear early in July and last until late September. Very hardy. **Price: 18 to 24 in., \$1.10 each; 2 to 3 ft., \$1.35 each.**

RED-LEAVED BARBERRY

Same as the popular, well known, hardy-as-an-Oak Greenleaf Barberry, except that the foliage is deep red in the spring and deep purple during the summer months. Popular for plantings in clumps, hedges, as well as in foundation plantings. **Price: 18 to 24 in., 80c each; \$7.50 for 10.**

SPIREA ANTHONY WATERER

A dwarf and very dense little shrub which bears flat clusters of rose-pink flowers all summer. If bloomed heads are removed it will continue to flower more abundantly. **Price: 12 to 15 in., 80c each; 15 to 18 in., \$1.00 each.**

WHITE SNOWBERRY

This low, shade loving plant bears rose-white flowers in summer, and large white berries in winter. A superb fine textured shrub for borders and shady foundation plantings. **Price: 1½ to 2 ft., 85c each; 2 to 3 ft., \$1.00 each.**

SWEET MOCKORANGE (Single)

A choice shrub, with a wealth of large, creamy white flowers that have the texture and fragrance of Orange blossoms. Blooms in May and June. **Price: 1½ to 2 ft., 85c each; 2 to 3 ft., \$1.00 each.**

Plant a Few of These Sweet-Scented Double Mockorange Shrubs

ENCHANTMENT MOCKORANGE (Double)

Produces profuse, long, thick panicles of double white flowers on erect branches in early spring. Sweetly fragrant. Very hardy and easily grown. **Price: 18 to 24 in., \$1.00 each; 2 to 3 ft., \$1.25 each.**

BRISTOL RUBY WEIGELA (Plant Patent No. 492)

Spring and Autumn Flowering. The color of the flowers is a pleasing sparkling ruby-red, shading to garnet-crimson. Flowers are produced in immense quantities in the spring and there is again a fine showing of bloom throughout the summer and autumn. Attains a height of 6 to 7 feet at maturity, and grows into a perfectly formed, well rounded specimen shrub requiring very little pruning. **Price: 18 to 24 in., \$1.25 each; 2 to 3 ft., \$1.50 each.**

MULTIFLORA ROSE

Bull Strong, Hog Tight, Horse High.

(*Rosa multiflora japonica*) is fast becoming one of America's most popular "living fences" on the American farm. Not recommended for small town lots due to immense growth. Produces an impregnable barrier for all livestock within 3 or 4 years. Its density provides a valuable windbreak. Its tight, stock-holding mat of thorns provides an excellent game refuge for wildlife cover, and adds beauty to the farm, producing white blooms profusely in early spring followed with red berries in the fall and winter. Price: 9 to 12 in. plants, 25 for \$2.25; 50 for \$4.00; 100 for \$7.50; 1000 for \$70.00.

Evergreens for Permanent Planting

Avail Yourself of Buntings' Lovely Well Grown Evergreens for a Dignified Foundation Planting

PFITZER JUNIPER. Broad, bushy, with gray-green branches. The most popular of the spreading Junipers. **Price: 10 to 15 in., \$2.25 each.**

YEWS

The Aristocrats of Evergreens

Noted for its beautiful dark green foliage and freedom from disease. See descriptions of varieties above. They will definitely add to the beauty of any planting. Especially recommended in the grouping illustrated below for landscaping each side of your doorway. Special Offer: One each of Hicks' Upright Yew, Spreading Yew, and Upright Japanese Yew, 12 to 15 in. size.

**3 for
\$9.50**

AMERICAN ARBORVITAE. Foliage flat, set on edge; color bright green. Somewhat conical in form, grows well under adverse conditions. **Price: 12 to 15 in., \$2.25 each.**

CHINESE ARBORVITAE. Tall, slender, fast grower; dark green foliage. **Price: 18 to 24 in., \$2.50 each.**

GOLDEN ARBORVITAE. Conical form, very dense, compact, bright yellow foliage. **Price: 8 to 10 in., \$2.25 each.**

GLOBE ARBORVITAE. Very dwarf in growth, round or globe shaped; foliage dark green. Does not require shearing. **Price: 8 to 10 in., \$2.25 each.**

PYRAMIDAL ARBORVITAE. Tall, slender; dense dark green foliage. The best Arborvitae grown. **Price: 15 to 18 in., \$2.50 each.**

GREEK JUNIPER. An attractive, dwarf, pyramidal tree, with compact, bluish green foliage. **Price: 10 to 12 in., \$2.25 each.**

IRISH JUNIPER. Trees form dense, slender cones of silvery green. **Price 18 to 24 in., \$2.75 each.**

RETINOSPORA PLUMOSA. A handsome evergreen with feathery, light green foliage. Makes a broad, symmetrical tree. Stands shearing well. **Price: 12 to 15 in., \$2.25 each.**

RETINOSPORA PLUMOSA AUREA. Pyramidal growing evergreen with plume-like, golden tipped foliage. Generally used in groups of evergreens for a contrast in color. **Price: 12 to 15 in., \$2.25 each.**

HICKS' UPRIGHT YEW. A beautiful, slow growing evergreen, with rich dark green foliage throughout the year. **Price: 12 to 15 in., \$3.25 each.**

SPREADING YEW. A compact, spreading variety; dwarf habit of growth. Very hardy; handsome dark green foliage. Almost covered with bright rose-red fruits in autumn. **Price: 12 to 15 in., \$3.25 each.**

UPRIGHT JAPANESE YEW. An upright, cone-shaped form; slow growing; dense green foliage. A very desirable type. **Price: 12 to 15 in., \$3.25 each.**

These 2 Arborvitaes

The very popular Pyramidal, 15 to 18 in. grade, and the formal Globe, 8 to 10 in. grade, an excellent combination for a doorway planting, (see further descriptions above), specially priced at

\$4.50

Colorful Broadleaf Evergreens and Hardy Shrubs

Choose varieties from this list for specimen or group planting on your lawn. Their blooms will enhance the beauty of your landscape, add a blaze of color to your outdoor decoration and provide a source of continued satisfaction.

OLD ENGLISH BOXWOOD

The famous Dwarf Boxwood so much admired in old gardens. Slow growing, compact, most attractive. Will grow in sun or partial shade. **Price: 6 to 8 in., \$1.35 each.**

EVERGREEN PRIVET

Leaves are large, glossy, dark green; flowers white; black berries in winter. **Price: 12 to 15 in., \$1.75 each.**

EUONYMUS PATENS

A compact, shapely evergreen shrub, with attractive, dark green foliage and bright berries. **Price: 15 to 18 in., \$2.50 each.**

MAGNOLIA SOULANGEANA

A mass of Tulip-shaped, ruddy pink, fragrant blossoms in early spring before the leaves appear. **Price: 18 to 24 in., \$2.75 each.**

MAGNOLIA LILIFLORA NIGRA

An open growing, small tree with Lily-shaped flowers which are rose-purple outside and white within, very fragrant. **Price: 18 to 24 in., \$2.75 each.**

JAPANESE HOLLY

Dense, compact bush with oval, dark green, glossy leaves; small black berries. **Price 10 to 12 in., \$1.95 each.**

AZALEA, CORAL BELLS

Brilliant, coral-pink flowers, showy against the dark green foliage in May. **Price: 6 to 8 in., \$1.85 each.**

AZALEA, SNOW

A particularly attractive plant, with large clusters of glistening white flowers in May. **Price: 6 to 8 in., \$1.85 each.**

ILEX OPACA

American Holly

The familiar Christmas Holly. Attractive, dark green, spined leaves; red berries in winter. **Price: 12 to 18 in., \$2.25 each.**

PYRACANTHA LALANDI

(Firethorn). Orange-red berries, against deep green foliage, provide a handsome sight in fall and winter. **Price: 12 to 15 in., \$2.25 each.**

PLEASE NOTE

Our Evergreens and Broadleaves are carefully grown, properly spaced in the nursery rows for symmetrical development. They have been transplanted, and will be carefully dug to get all the tender rootlets. The roots will be puddled in mud and wrapped in damp moss for shipment. Plant immediately after moss is removed from roots. This method of packing saves the vital roots, insures good growth and makes possible low cost shipments.

Azalea Hinodegiri

AZALEA HINODEGIRI

The most popular of all Azaleas. Good deep green foliage and bright scarlet flowers completely cover the plant in late spring. **Price: 6 to 8 in., \$1.85 each.**

ABELIA GRANDIFLORA

(Bush Arbutus). Pinkish white, trumpet-shaped flowers from May until frost. **Price: 15 to 18 in., \$1.50 each.**

Abelia Grandiflora

Decorative and

Flowering Trees

Pink Flowering Dogwood

WEeping Flowering Cherry. A weeping form of the popular Double Flowering Cherry. Has slender, pendulous branches hanging nearly to the ground. In early May the branches are strung with showy rose-pink flowers. **Price:** 2-year heads, 5 to 6 ft. stems, \$7.50 each.

Weeping Cherry

PINK FLOWERING DOGWOOD. A profusion of pink and red flowers in May. Its foliage is unusually brilliant in fall. **Price:** 2 to 3 ft., \$4.00 each.

HOPA FLOWERING CRAB. A handsome ornamental tree. An abundance of bright red flower clusters in the spring. **Price:** 5 to 6 ft., \$2.35 each.

Hopa Crab

JUDAS TREE (Redbud). A small tree or large bush with a broad round top. In May before the leaves appear, it bears dense masses of deep rose-pink flowers. **Price:** 3 to 4 ft., \$3.00 each.

KWANZAN FLOWERING CHERRY. Well known because of the renowned plantings in Washington, D. C. Double, dark pink blossoms in early spring. **Price:** 4 to 5 ft., \$3.75 each.

PURPLE-LEAF PLUM. A profusion of blooms in May. Deep red foliage all spring and summer. **Price:** 4 to 5 ft., \$2.30 each; 5 to 6 ft., \$2.55 each.

DOUBLE FLOWERING PEACH. Small trees, covered in early spring with double, rose-like flowers. Colors: red, white and pink. State choice of color. **Price:** 4 to 5 ft., \$1.95 each.

WHITE FLOWERING DOGWOOD. In early May this small native tree is a cloud of white flowers, and in the autumn the upper sides of the leaves turn a brilliant crimson. **Price:** 3 to 4 ft., \$3.00 each.

CRIMSON KING MAPLE. (Patent No. 735.) Red leaf, truly the king of all Maple trees. A maroon or red leafed tree which maintains its color throughout the summer. It glistens in the sun. Maturity height 50 ft. **Price:** 5 to 6 ft., \$6.00 each.

Delaware

EUROPEAN MOUNTAIN ASH. A very attractive, small, hardy tree which bears clusters of scarlet berries from July to winter. **Price:** 6 to 8 ft., \$4.50 each.

SCHWEDLER MAPLE. Similar to the Norway Maple in form and leaf except the leaves are red in spring and early summer, and turn to purple in late summer and fall. **Price:** 6 to 8 ft., \$5.50 each.

European Mountain Ash

CUT-LEAF WEEPING BIRCH. Distinguished for its white bark, light green leaves which are finely cut, and its long drooping branches. **Price:** 6 to 8 ft., \$4.50 each.

WISCONSIN WEEPING WILLOW. The famous Weeping Willow whose long, pendulous branches droop to the ground with matchless grace. Creates exquisite effects on the margin of streams or lakes. An excellent quick growing tree with many uses. **Price:** 6 to 8 ft., \$3.25 each.

CHINESE ELM. A very rapid growing tree of dense pyramidal form. Slender, grayish branches, and small, fresh green leaves. **Price:** 6 to 8 ft., \$3.25 each.

PIN OAK. Perfectly symmetrical tree; bright shiny green foliage which is deeply cut. Crimson fall coloring. An excellent all-purpose tree. **Price:** 8 to 10 ft., \$7.00 each.

Silver Maple

Schwedler Maple

PAUL'S DOUBLE SCARLET THORN. Masses of double, showy, scarlet-crimson flowers on irregular, picturesque branches. Yellow-green bark is in pleasing contrast with nearby plants. Showy in fruit as well as bloom. Maturity height 20 feet. **Price:** 5 to 6 ft., \$5.00 each.

AMERICAN ELM. A stately and dignified tree. Well known and justly popular for street, park or roadway. **Price:** 8 to 10 ft., \$4.25 each.

MIMOSA (Silk Tree). Acacia-like foliage. Low, flat-topped tree, almost umbrella-like. Feathery, fragrant pink blossoms in summer. **Price:** 6 to 8 ft., \$3.25 each.

LOMBARDY POPLAR. A tall spirelike tree. Effective for screens and vertical accents. **Price:** 6 to 8 ft., \$1.60 each.

Norway Maple

ELEYI FLOWERING CRAB. Attractive red foliage in spring. Smothered with large reddish pink flower clusters during flowering period, and followed by conspicuous brilliant scarlet fruit that is excellent for jelly. Very showy. **Price:** 4 to 5 ft., \$1.95 each; 5 to 6 ft., \$2.35 each.

SILVER MAPLE. Well known, most popular, rapid growing shade tree. **Price:** 6 to 8 ft., \$3.25 each; 8 to 10 ft., \$4.25 each.

NORWAY MAPLE. Symmetrical, dense, round-headed tree; well known, justly popular. **Price:** 6 to 8 ft., \$4.50 each; 8 to 10 ft., \$5.50 each.

Perennial Plants

Excellent for Cut Flowers and Outdoor Garden Beauty

HARDY CARNATIONS. Masses of lovely flowers all season. Large, fragrant blooms on long stems; excellent for cutting. Colors: red, pink, white and yellow.

HOLLYHOCKS. Exceptionally lovely for backgrounds. Will bloom this summer and continue to bloom heavily for many years thereafter. Colors: red, pink, white and yellow.

PRICES:
All varieties perennials listed, 50c each; 3 for \$1.35; 6 for \$2.40.

BLEEDING HEART. A favorite in Grandmother's garden a half century ago, it lends a fine romantic touch to any garden. Thrives in partial shade, but will grow in full sun. The plant grows larger, more beautiful each passing year.

DELPHINIUM. One of the most popular and best known perennials. The flowers are various shades of blue, produced on long stems starting in June.

Cushion Mums Multiple-Flowering

This compact bush is literally covered with hundreds of dainty flowers during late summer and fall. They retain their globular shape and often make a ball-shaped plant with about 2½ foot spread. Colors: red, pink, white and yellow. **See perennial prices above.**

Other Worth-While Perennials Not Illustrated

BABY'S BREATH. Small, white flowers from June to September; excellent for cutting.

CHRYSANTHEMUMS. Bloom from late summer all through autumn. Excellent for bouquets. Colors: red, white and yellow.

COLUMBINE (Aquilegia). This improved form of Columbine produces flowers 3 to 4 inches across, with long spurs, borne on graceful stems.

COREOPSIS (Tickseed). Pure yellow flowers from June to frost.

DAY LILY (Hemerocallis). Bloom July and August; rich golden yellow to deep golden orange.

FALSE DRAGONHEAD. Flowers lively pink, similar to Snapdragon. Blooms from July to September. Thrives in all soils.

GAILLARDIA (Blanket Flower). Blooms from June to November; brilliant orange-yellow, red-centered flowers.

GERMAN IRIS. Flowers delightfully fragrant, lasting well into June; good for cutting.

SPEEDWELL (Veronica). Rich blue flower spikes in August.

White Phlox

Red Phlox

BUNTINGS' SUPERIOR PHLOX

Immense flower heads are carried on straight, strong stems, from mid-summer to autumn. The plants we send you bloomed in our fields last summer. They will bloom for you this summer, and for years to come. Hardy, strong growers, producing dazzling color year after year. Colors: white, pink, red and violet-blue. **See perennial prices above.**

Gladiolus

Best Long-Stemmed Varieties

BETTY NUTHALL. Large coral-pink with pale yellow throat.

DR. F. E. BENNETT. Deep scarlet, marked with white.

MARY SHARY. Clear primrose-yellow, with deep yellow throat.

MAID OF ORLEANS. Snow-white, rich creamy throat. A fine cut flower.

MINUET. A striking flower of delicate lilac-lavender.

PICARDY. Finest apricot-pink. Has a charming wax-like appearance.

PRICES. BLOOMING SIZE BULBS:

6 for 70c; 12 for \$1.30; 25 for \$2.50; 50 for \$4.75; 100 for \$8.50.

(Not less than 6 bulbs of a variety sold.)

LARGE FLOWERING Cannas

For Broad Landscape Effects

CITY OF PORTLAND. Deep rose-pink flowers; green foliage.

KING HUMBERT. Tall. Scarlet flowers; bronze foliage. Very popular.

KING MIDAS. Dwarf. Clear yellow flowers; green foliage.

MADAM CROZY. Dwarf. Flowers red with yellow edge; green foliage.

PRESIDENT. Glowing scarlet; extra large trusses of brilliant color; green foliage. The finest red Canna offered today.

RICHARD WALLACE.

Medium. Canary-yellow flowers; green foliage.

YELLOW KING HUMBERT.

Medium. Deep rich yellow spotted with red; green foliage.

(Spring Planting Only)

**CANNA PRICES
HEAVY TUBERS:**
3 for 60c; 12 for
\$2.10; 25 for
\$3.75.

Buntings' Strawberries

Every Strawberry Grower Prefers Buntings' Golden Rooted Plants

SPARKLE

Originated by the New Jersey State Experimental Station. A vigorous grower and very productive. Berries are somewhat round in shape, of excellent quality and splendid for freezing. Price: 25 for \$1.10; 50 for \$1.80; 100 for \$2.90; 250 for \$5.90; 500 for \$9.05; 1000 for \$14.50; 5000 for \$67.50.

Sparkle

RED CROP

A new variety originating in New Jersey. Ripens midseason; excellent quality, firm, large berries. Plants make a vigorous growth and have the stamina to withstand adverse conditions. Try it this year and convince yourself of its merits. Price: 25 for \$1.20; 50 for \$2.00; 100 for \$3.20; 250 for \$6.40; 500 for \$10.00; 1000 for \$16.00; 5000 for \$75.00.

MASSEY. Late. Very firm, extremely large, bright red berries with a nice green cap. Makes a good fruiting bed. Plants are quite vigorous with good fruiting stems, holding the berries up off the ground. Price: 25 for \$1.05; 50 for \$1.75; 100 for \$2.80; 250 for \$5.60; 500 for \$8.75; 1000 for \$14.00; 5000 for \$65.00.

MISSIONARY. A good early variety. At least 95 per cent of the Strawberries grown in the state of Florida are Missionary. A strong grower and productive. The berries are well colored and firm. Price: 25 for 90c; 50 for \$1.50; 100 for \$2.40; 250 for \$4.80; 500 for \$7.50; 1000 for \$12.00; 5000 for \$55.00.

SOUTHLAND. Large, firm berries, very fine quality. Plants make a healthy, vigorous growth. Particularly recommended for the southern states. Price: 25 for \$1.05; 50 for \$1.75; 100 for \$2.80; 250 for \$5.60; 500 for \$8.75; 1000 for \$14.00; 5000 for \$65.00.

KLONMORE. Bright red berries of medium size; good dessert quality and firm enough for shipment. Virus-free strain from the U.S.D.A. Resistant to leaf spot. Price: 25 for 90c; 50 for \$1.50; 100 for \$2.40; 500 for \$7.50; 1000 for \$12.00.

KLONDYKE. Smooth, uniform, bright-red berries and firm flesh. Virus-free strain from the U.S.D.A. Popular in southern commercial areas. Price: 25 for 90c; 50 for \$1.50; 100 for \$2.40; 500 for \$7.50; 1000 for \$12.00.

FAIRLAND

Fairland is the latest introduction of the U. S. Department of Agriculture, Beltsville, Maryland.

Fairland ripens early midseason, produces large, bright red firm berries which carry to market in excellent condition and command premium prices. The berries ripen just a few days after Premier, at a time when there is a good demand for quality fruit.

A vigorous grower, producing runner plants freely. The healthy foliage is usually free of leaf spot and scorch. Resistant to red stele root disease.

Price: 25 for \$1.10; 50 for \$1.80; 100 for \$2.90; 250 for \$5.90; 500 for \$9.05; 1000 for \$14.50; 5000 for \$67.50.

BIG JOE. Midseason. Ripens about three days before Gandy. Fruit is firm and of large size, good color and of delicious flavor; no green tips; plants are strong growers and thrive on any soil that will produce Strawberries. Price: 25 for \$1.05; 50 for \$1.75; 100 for \$2.80; 250 for \$5.60; 500 for \$8.75; 1000 for \$14.00; 5000 for \$65.00.

SENATOR DUNLAP. Fruit is of good size and a beautiful bright red color, glossy and very firm. It is a splendid shipper and of excellent quality. It stands up well in dry weather and makes a good fruit bed under adverse weather conditions. Price: 25 for 90c; 50 for \$1.50; 100 for \$2.40; 250 for \$4.80; 500 for \$7.50; 1000 for \$12.00; 5000 for \$55.00.

LUPTON LATE. Berries large, bluntly conical with double, dark green cap. An excellent shipper. Price: 25 for \$1.05; 50 for \$1.75; 100 for \$2.80; 250 for \$5.60; 500 for \$8.75; 1000 for \$14.00; 5000 for \$65.00.

TENNESSEE SHIPPER. Exceptionally firm, attractive berries; ideal for freezing, canning and preserving. Virus-free strain from the U.S.D.A. Price: 25 for \$1.05; 50 for \$1.75; 100 for \$2.80; 500 for \$8.75; 1000 for \$14.00.

TENNESSEE BEAUTY. Very productive, midseason variety. Bright shiny red berries with good shipping qualities. Virus-free strain from the U.S.D.A. Price: 25 for \$1.05; 50 for \$1.75; 100 for \$2.80; 500 for \$8.75; 1000 for \$14.00.

Best-by-Test

BUNTINGS' STRAWBERRY PLANTS ARE GROWN IN FERTILE, CHEMICALLY TREATED SOIL. THEY ARE FREE FROM DISEASE AND INSECTS

Fairfax

FAIRFAX

Early. The quality berry. A favorite in quality, flavor and productiveness. Originated and introduced with Dorsett, now widely known and planted. The berries are exceptionally large all through the fruiting season, and very firm. Plant Fairfax for its superb flavor, large size and universal demand. **Prices:** 25 for \$1.10; 50 for \$1.80; 100 for \$2.90; 250 for \$5.90; 500 for \$9.05; 1000 for \$14.50; 5000 for \$67.50.

ROBINSON

Ripens just after Premier, at a time when berries bring a good price. Berries are large, brilliant red, uniform in size. **Price:** 25 for \$1.05; 50 for \$1.75; 100 for \$2.80; 250 for \$5.60; 500 for \$8.75; 1000 for \$14.00; 5000 for \$65.00.

Temple

TEMPLE

An exceptionally vigorous variety, making a dense bed of unusually tall plants. Quite productive, and nearly as early as Blakemore. Berries are large, blunt, conic, smooth, uniform and have large, attractive caps. Good quality fruit; a choice of commercial cold packers of Strawberries. Introduced because of its resistance to diseases. **Price:** 25 for 95c; 50 for \$1.60; 100 for \$2.60; 250 for \$5.20; 500 for \$8.10; 1000 for \$13.00; 5000 for \$60.00.

Streamliner

One of the Best Everbearing Strawberries

Generally conceded to be one of the best everbearing Strawberries offered today. Streamliner has been under our constant observation since its origin, and after carefully checking on the variety we proclaim it a superior everbearer.

Streamliner has real Strawberry flavor, rich red color throughout, is excellent for eating fresh and recommended for canning or freezing. Its spring crop compares favorably to that produced by today's leading standard varieties. Streamliner makes a good fruiting bed. **Price:** 25 for \$1.90; 50 for \$3.15; 100 for \$5.00; 250 for \$10.00; 500 for \$15.65; 1000 for \$25.00; 5000 for \$120.00.

Buntings' Leadership in Golden Rooted Strawberry Plants

The Great MASTODON

Has been a leader among the everbearing varieties for many years. Makes strong, robust plants. The berries are large in size and have good flavor. Plant in good fertile soil, and you will be delighted with this long-time favorite. Its spring crop compares favorably with that of other June-bearing sorts. **Price: 25 for \$1.95; 50 for \$3.25; 100 for \$5.20; 250 for \$10.40; 500 for \$16.25; 1000 for \$26.00; 5000 for \$125.00.**

FAIRPEAKE

A Leading Late Variety

A cross between Chesapeake and Fairfax, this Strawberry retains the delicious flavor of Fairfax and is more productive than Chesapeake. A vigorous grower, this plant produces a quality berry of good size. The flesh is firm, juicy and red to the center. Excellent for either the home gardener or commercial grower. **Price: 25 for \$1.15; 50 for \$1.90; 100 for \$3.00; 250 for \$6.00; 500 for \$9.40; 1000 for \$15.00; 5000 for \$70.00.**

RED STAR

A comparatively new, extremely late variety, originated by Dr. George Darrow, of the U. S. Department of Agriculture. Very large, firm, bright red berries, with good flavor. Vigorous grower, very productive. Red Star is recommended for all the northern states. Red Star is really a great addition to the Strawberry variety list, filling a definite need for an extra late variety of very high quality. **Price: 25 for \$1.25; 50 for \$2.10; 100 for \$3.40; 250 for \$6.80; 500 for \$10.60; 1000 for \$17.00; 5000 for \$80.00.**

CHESAPEAKE

Late. A market berry that withstands long hauls, maintaining its color and firmness. The berries are large and hold their size well to the end of the season. Chesapeake does best in fertile, moist land.

Price: 25 for \$1.20; 50 for \$2.00; 100 for \$3.20; 250 for \$6.40; 500 for \$10.00; 1000 for \$16.00; 5000 for \$75.00.

GEM

One of the leading everbearing varieties. Bright, attractive berries of good size, uniform in shape and pleasing flavor. A vigorous grower, making runner plants freely. **Price: 25 for \$1.90; 50 for \$3.15; 100 for \$5.00; 250 for \$10.00; 500 for \$15.65; 1000 for \$25.00; 5000 for \$120.00.**

CATSKILL

An outstanding Midseason Variety
Becoming More Popular Every Year

Originated in 1934 from a cross between Premier and Marshall. Produces large, strong plants; makes an ideal fruiting bed. The berries are large in size, bright red color. Equals Premier in flavor and carries a bright green cap. Firm enough to arrive on the market in excellent condition. It is considered almost frost-proof, and can be depended upon to produce annually bumper crops of fruit. **Price: 25 for \$1.15; 50 for \$1.95; 100 for \$3.10; 250 for \$6.20; 500 for \$9.70; 1000 for \$15.50; 5000 for \$72.50.**

PREMIER

Early. This very popular berry has stood the test of many years. Fruit large and holds its size well throughout the ripening season. Foliage smooth, bright and clean. A good plant maker. One of the most extensively planted early varieties of Strawberries at this time. There are but very few varieties that have equalled Premier's production record. In flavor and quality it ranks with the best. Recommended for home use, local sales or commercial markets. **Price: 25 for \$1.00; 50 for \$1.70; 100 for \$2.70; 250 for \$5.40; 500 for \$8.45; 1000 for \$13.50; 5000 for \$62.50.**

Grown in Chemically Treated Soil for Better Plants — More Production — Finer Berries

STRAWBERRIES

Superfection

A NEW STRAWBERRY DELUXE

Originated by Mr. Keplinger of Northern Michigan who discovered the famous Gem Everbearer. The berries are exceptionally large and round, red to the center with a sweet pleasing mellow flavor. They are firm, and will withstand shipment without losing their quality.

Delicious to eat fresh, canned, preserved in jams and jellies, as well as fresh frozen. Bears an abundance of large berries throughout late summer and fall season. The spring crop compares favorably with leading standard varieties.

We believe it is the best everbearer ever introduced, and think it will replace the others in popularity when it becomes more widely known. Made to order for the small gardener as well as the commercial planter, we consider this a mighty good variety and recommend that you plant them.

The Best Everbearing Strawberry

Price: 25 for \$1.80; 50 for \$3.00; 100 for \$4.80; 250 for \$9.60; 500 for \$15.00; 1000 for \$24.00; 5000 for \$115.00.

Ambrosia
Late

Ambrosia Late

Considered by many to be the largest, latest and best Strawberry introduced. The berries are very large, semi-pointed, rich, sparkling bright red, of delicious flavor. Ripens 3 weeks later than Premier, when other Strawberries are gone. It is self-pollenizing and extremely hardy. Fruit stems are very rigid and often attain a height of 6 inches. Berries develop in the shade of the leaves and off the ground, which assures clean fruit. **Price: 25 for \$1.05; 50 for \$1.75; 100 for \$2.80; 250 for \$5.60; 500 for \$8.75; 1000 for \$14.00; 5000 for \$65.00.**

Midland

Originated as a cross between Premier and Redheart. A comparatively new, early variety just recently released for introduction by the U. S. Department of Agriculture. Midland is a vigorous grower, making plenty of plants and large, strong ones. Fruit clusters are large, and the berries very large. A good shipper; and flesh is rich red and juicy, excellent quality. We endorse it as a leader among the early Strawberries; unexcelled for home freezing units. **Price: 25 for \$1.20; 50 for \$2.00; 100 for \$3.20; 250 for \$6.40; 500 for \$10.00; 1000 for \$16.00; 5000 for \$75.00.**

Midland

Blakemore

The Ideal Shipping Berry

We offer a special strain of Blakemore, free from yellows. A healthy plant that yields big crops of berries. Will stand two or three days without over-ripening. Foliage is healthy and stands up well during drought. Fruit is firm, of good color and unexcelled as a long-distance shipping berry. Ranks high in productiveness. To get all that you are entitled to from Blakemore, do not allow them to mat too thickly in the rows during the growing season.

Price: 25 for 90c; 50 for \$1.50; 100 for \$2.40; 250 for \$4.80; 500 for \$7.50; 1000 for \$12.00; 5000 for \$55.00.

Dorsett

Early. Its bright red color and rich, delicious flavor always bring top market prices. Ripening early with Premier and Blakemore, this variety rapidly came to the top in favor, and is well known and widely planted. Price: 25 for \$1.15; 50 for \$1.90; 100 for \$3.00; 250 for \$6.00; 500 for \$9.40; 1000 for \$15.00; 5000 for \$70.00.

Growing Strawberries Profitably Setting Plants

Clip the roots if they can't be planted without doubling. The plant should be set with the crown about even with the soil after it has been thoroughly firmed around the plant.

Type of Soil

Select a plot springy in nature but well drained and free of vegetation. Moisture is essential. The land which you contemplate setting to Strawberries should be kept as free from vegetation as possible during the previous year. If the land has been lying idle, plow late in the summer before the weeds and grass develop seed to maturity. Heavy crops of Cow Peas, Soy Beans, etc., if plowed under in late summer while green increase the humus and fertility of the soil, making it loose and porous; therefore, more retentive of moisture.

Soil Preparation and Fertilization

Prepare soil same as for truck or garden crops. Lay out rows, usually 3½ to 4 feet apart; set plants about 15 to 18 inches apart in the rows. Do not use commercial fertilizer at the roots. If soil is fertile we do not recommend using any type of fertilizer when planting. After the plants have been set in the row, a light application of fertilizer may be applied around the plant and worked into the soil with a hoe. Do not allow the fertilizer to fall on the leaves of the plant. During the growing season additional applications of fertilizer may be applied if the soil is not reasonably fertile.

The following spring after plants have been set, during the months of February or March, apply a good grade of commercial fertilizer carrying an analysis of 5 per cent ammonia, 6 to 8 per cent phosphoric acid and 10 per cent potash, broadcast on the row of the plants, at the rate of 15 to 20 pounds per hundred yards of row space.

Cultivation

Keep Rows Free of Vegetation.

As soon as the plants are set in the spring, cultivation should begin, and should be continued whenever weeds start or a crust forms. Frequent shallow cultivation will make it unnecessary to do much hand hoeing or hand weeding.

Mulching

After the first freeze during fall months, wheat or rye straw may be applied over the rows of plants for winter protection. Early in the spring, before growth starts, it should be removed from the bed of plants and placed between the rows to retain moisture and keep berries clean.

Planting Time

Northern States—April and May.
Central States—March and April.
Southern States—February and March.

Blueberries

There is a big market for these delicious Blueberries; they make money from any type of acid soil. Grow in big clusters—5000 to 8000 pints per acre—easy to harvest, thornless. Plants last a lifetime, give bigger yields every year.

If your soil is sweet, use peat moss or partially rotted vegetable matter around the plants to create acid. The period of ripening covers several weeks, therefore, harvesting can be done at leisure. Write us and ask for free booklet on Blueberry culture.

Your choice of June (early), Rancocas (midseason) and Jersey (late). Use two or more varieties to cross-pollenate for best results.

A New Method of Growing Everbearing Strawberries

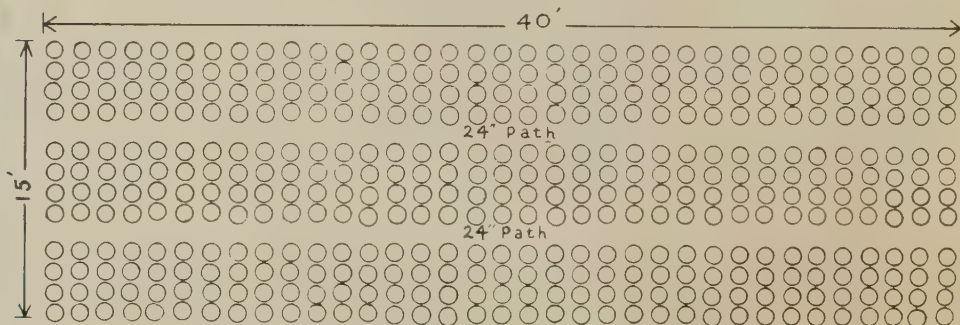

If you raise fruit for home consumption or commercial markets, how would you like to produce 100 quarts of delicious Strawberries from a plot of ground 40 feet long and 15 feet wide or 7000 quarts per acre. How would you like this high yield the very first growing season and a similar crop the second year? Such production is possible if everbearing Strawberries are raised by the spaced-plant, peat-moss-mulch system. On favorable locations and with some of the newer varieties such as Superfection, even higher yields can be expected.

Renewed interest in growing Everbearing Strawberries has been brought about by this revolutionary system, whereby plants are set in rows 1 foot apart, plants 1 foot apart in the row, with 4 rows forming a bed. A 2-foot space is left between the beds to provide a path along which to work when picking the fruit or removing weeds. A 1-inch layer of peat moss mulch is applied throughout the plot, and **all runners should be removed from the plants as fast as they develop through the entire season. All blossoms are kept removed from plants until July 1 the first season.** Plant in fertile soil.

Complete planting and cultural data will be supplied upon request. If possible, plant in soil that has received an application of potash during the past few months or year. A balanced plant food for Strawberries should carry an analysis of 5% ammonia, 6% to 8% phosphoric acid and 10% to 12% potash, applied on a basis of 15 to 20 pounds per 100 yards of bed space. Apply after plants are set.

At a cost of only \$15.65 for 500 plants you can have this "back-yard" plot that should produce 100 quarts of berries the first season, starting about 90 days after setting the plants. It will require 35,000 plants for an acre. Commercial growers will quickly capitalize on the idea because the berries ripen uniformly, meet with ready sale, and give a much greater yield, resulting in high profits.

Diagram below shows method of planting a "back-yard" Everbearing Strawberry patch that will produce 100 quarts of delicious berries the first year.

As noted in the diagram above, plants are set in beds 4 rows wide, with the plants spaced 1 foot apart each way. It will require 500 plants to set a space 15 ft. by 40 ft.

This illustration shows only a small section of 2 plants grown by the spaced-row system. An abundance of berries like those shown above are produced continuously from July 15th to November 1st. Each plant will attain about 12 inches to 15 inches spread.

GRAPES

Grow the Profitable Bunting Grapes

AGAWAM

Deep red or maroon. Ripens early. Fruit large and meaty, borne in extra large, loose-shouldered bunches. Vines strong growers, very healthy. Ripens with Concord. Has a delightful aromatic flavor.

BRIGHTON

One of the best red varieties; bunch variable in size, flesh tender and juicy, red; early.

CACO, the Best Red

This is a variety considered the best and hardiest amber-red ever produced, the bunches being very large and the berries comparable with the new Fredonia. In quality Caco ranks among the best of the native Grapes, approaching in flavor European Muscat rather than the foxiness of native Grapes.

CATAWBA

Keeps better than any Grape in cultivation. Ripens late and can be kept in good condition a long time. Berries large, round, when fully ripe dark copper colored. Good market variety.

CONCORD

Discovered about 100 years ago. Apparently a seedling of a wild Grape. It early established the record of being the "Grape for the millions"—the KING of the Grape family. It is still the best all-around Grape. Its adaptability to varying climatic conditions alone makes it popular, to say nothing of what can be made of its fruit, such as sweet Grape juice, jellies, jams, marmalade, etc.

Concord is a very vigorous grower, hardy and very productive. Ripens midseason and known as the best money-making commercial variety; also for home use, it is unsurpassed by any other variety.

DELAWARE

Early. Vine moderately healthy and vigorous. Bunch small but compact; berries small to medium in size, red in color and of excellent flavor.

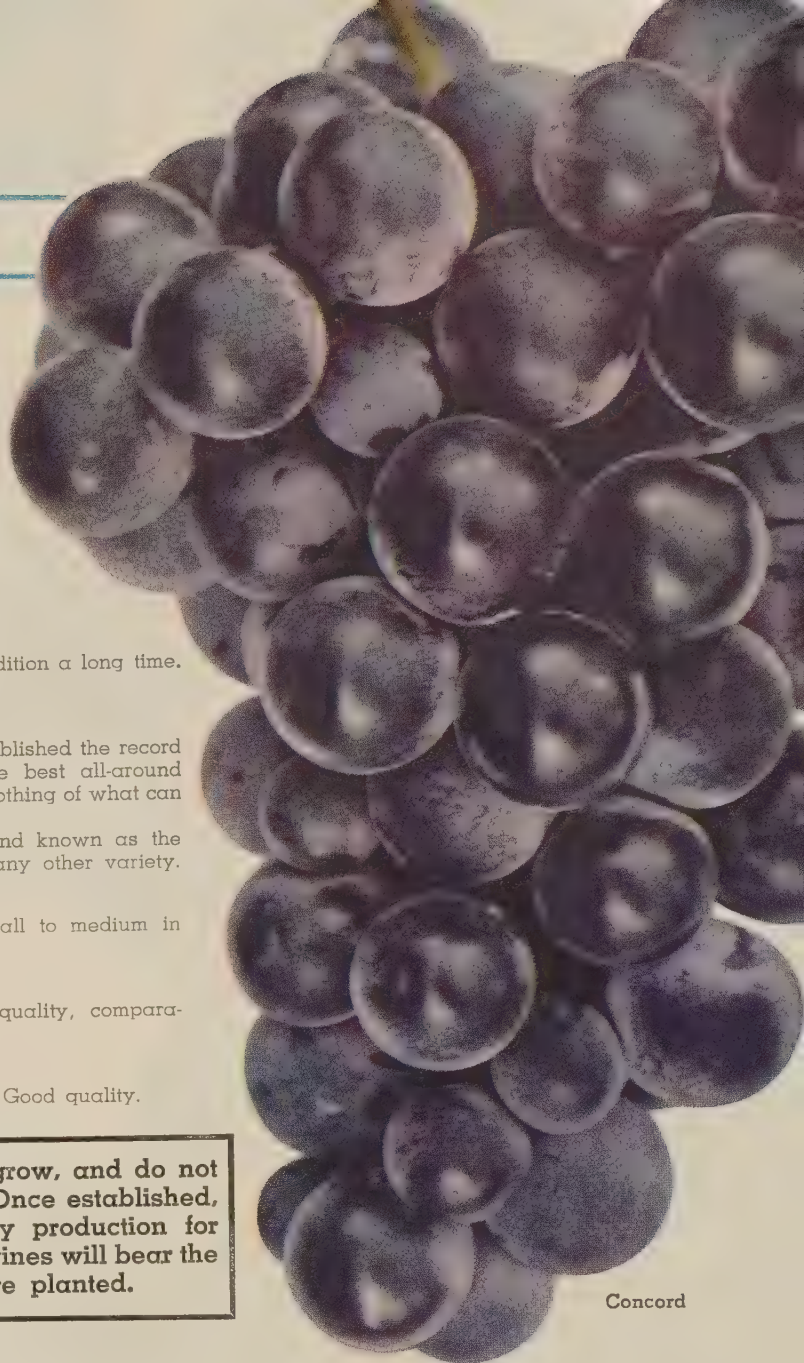

FREDONIA

Black, with heavy bloom, cluster about medium, berry large, very early, good quality, comparatively new and very promising.

MOORE'S DIAMOND

White. Ripens early September. Berries medium size, and desirable for Grape juice. Good quality.

Grapes are easy to grow, and do not require a lot of space. Once established, they continue in heavy production for many years. Buntings' vines will bear the next year after they are planted.

Concord

Niagara

SEEDLESS CONCORD

Same color, flavor and season as Concord but has no seeds. Excellent for canning and eating fresh. Price: \$1.00 each; 3 for \$2.70.

MOORE'S EARLY

Ripens before Concord. Color of Grapes deep black. Large and of best quality. Bunches hold together firmly. One of the best shippers. A profitable variety for either home use or market. Makes excellent wine. Very productive. Like Concord and Worden produces abundantly in nursery row on two-year-old vines.

NIAGARA

A Quality White Grape

Was first fruited in 1868. Concord is one of its parents. It received practically all of its characteristics from this parent. Niagara, therefore, is Queen of the Grape family. Where well grown, its bunch, berry and coloring cannot be surpassed in beauty. It has been and still is the standard white table Grape of Eastern United States. It does not easily crack. Consequently it makes a very good appearance on the market, inducing larger sales. The fruit of Niagara is at its best when left on the vines until well ripened. **Niagara is a worthy Queen of King Concord.**

PORTLAND

White, very early, cluster medium large, berry good quality. Very hardy, vigorous grower; productive. New and very promising.

WORDEN

Vine moderate grower, very hardy and productive. Grapes very large, thin skin, very fine flavor, blue-black in color and fine for home use or nearby market. One of the earliest, ripening about 10 days before Concord. Fruits heavily on young vines

Buntings' Remarkable Raspberries

Cumberland—
the best bet
in blacks

CUMBERLAND

The Black Raspberry

In blacks—your best bet. Produces large, jet-black fruit, firm and of excellent quality; sweet and mild, ripening in midseason and continuing for two weeks. Extensively planted for commercial purposes and for table use. Fruit is large, plump and juicy, with a true "Blackcap flavor" all its own. Because of its extremely firm texture, Cumberland is an ideal shipper. No black Raspberry has ever been grown as extensively as Cumberland, nor attained its great popularity in all Raspberry producing sections of the country.

PRICE: 1-yr., No. 1, 5 for \$1.40; 10 for \$2.10; 25 for \$3.90; 100 for \$11.55; 250 for \$24.95; 500 for \$40.25; 1000 for \$70.00.

You can make money with Raspberries because their delicate flavor won't keep, and the berries can't be shipped long distances. This gives you all the local market, with little competition from outside—and a chance to sell on a quality basis alone.

PRICE

(All varieties except Cumberland and September, Everbearing)

1-yr., No. 1, 5 for \$1.70; 10 for \$2.55; 25 for \$4.70; 100 for \$14.00; 250 for \$30.30; 500 for \$48.85; 1000 for \$85.00.

Newburgh

(Red.) Midseason. This variety was introduced by the New York Fruit Testing Association. Plant vigorous grower, branching more than most red varieties. Hardy, very productive. Fruit very large, firm. Does not crumble. Precedes Latham a few days in ripening. An excellent shipper and keeper.

Indian Summer—Giant Red Everbearer

INDIAN SUMMER

Giant Red Everbearer

The best everbearing red Raspberry. Earliest to ripen; bears a full crop in June and an immense crop in the fall. A sensation because of its size, flavor and unusual beauty. Wonderful keeping qualities. Berries are glossy red, conical in shape and of extra large size. The greatest all-purpose Raspberry. The fall crops, when Raspberries are scarce and therefore highly prized, are heavier than the earlier ones.

TAYLOR

This red Raspberry is considered to be the best of them all for New York and the northern states. Plants are vigorous, hardy, productive, tall growing and increase rapidly. Sturdy canes hold the berries well off the ground. The berries, bright attractive red, are thick-fleshed, firm and of excellent quality.

are Rapid Vigorous Growers

Plant Buntings' Well Developed
Raspberry Bushes That Are
Noted for Their Splendid
Root System

SUNRISE

The earliest red Raspberry of them all. The bright red, round berries are juicy, have a delicious flavor and aroma, fine, firm texture. It combines the necessary characteristics of a successful berry; earliness and high quality of fruit, also hardiness and resistance to disease. Excellent for home use.

SEPTEMBER EVERBEARING

A new everbearing red Raspberry, a cross between Marcy and Ranere, introduced by the New York State Fruit Testing Association. Berries are of good size, high quality, round, bright red, show no crumbling tendencies and cling securely to the bushes. Its spring crop is about five days earlier than Newburgh, and the fall crop matures before frost. Plants are vigorous and increase rapidly. Ideal for either home or commercial gardens.

Price: 1-yr., No. 1, 10 for \$3.85; 25 for \$7.50; 100 for \$22.50.

LATHAM

The productiveness and resistance to disease of this popular midseason to late red Raspberry has attracted the attention of growers everywhere, and, in the Northwest, the great berry growing section of America, growers are enthusiastically planting it heavily each year. Extremely hardy, cold weather seems to have no effect on its outstanding bearing ability. Plants are vigorous growers, highly resistant to insects, mosaic free and start ripening in midseason and continue an unbelievably long time. Berries are extra large, beautifully colored rich dark red, and good flavored.

of them all

How to Grow Raspberries Successfully

CULTURAL DIRECTIONS—RED RASPBERRIES

Two methods of culture are commonly used, the hill system and the solid row system. Under the first system plants are usually set five feet apart each way while under the second system they are set three feet apart in rows seven feet apart. Place plants in hole or furrow, spread roots, fill to ground level, and press soil firmly. After planting, cut all canes back to 2 or 3 inches above the ground level. The following spring, before growth starts, prune canes back to a length of about three feet. After fruiting season, cut out all fruiting canes and burn them to destroy any disease or insects. Future year's growth should be confined to six or eight strong canes to each plant, following same procedure year after year.

CULTURAL DIRECTIONS—BLACK RASPBERRIES

Two methods of culture are commonly used, the hill system and the solid row system. Under the first system plants are usually set six feet apart each way while under the second system they are set four feet apart in rows seven feet apart. Place plants in hole or furrow, spread roots, fill to ground level, and press soil firmly. After planting cut all canes back to two or three inches above the ground level. When new growth starts and has attained a height of 18 to 24 inches, it is best to pinch the tips of the canes which causes each cane to throw off branches and grow upright. All lateral branches should be cut back severely, leaving from 6 to 8 inches of cane. Weak spindling canes are cut out entirely. The following spring, before growth starts, prune canes back to a length of about 3 feet. Cultivate Raspberries shallow during entire season but do not continue beyond picking season, as late growth will not mature sufficiently to withstand the winter.

A booklet containing complete planting and cultural directions for all trees and plants offered in this catalog will be included free with each order upon request.

Illustration features a bunch of Asparagus tips cut from a planting of Buntings' superior strain Asparagus crowns. We grow each year millions of a superior strain Asparagus crowns for the more discriminating class of commercial Asparagus growers and gardeners. Include in your order for your garden this year some Asparagus. There is nothing more delicious and healthful than freshly cut Asparagus tips from your own garden. Very successful in freezing units.

RHUBARB or Pieplant

MacDONALD RHUBARB. You'll want some of this red, sweet Rhubarb. The new seedless variety, grown from divisions. Out-yields and takes less sugar than Myatt's Linnaeus. Mildly acid, bears stalks up to 2 feet tall, red all the way down. **Price: No. 1 divisions, 75c each; 3 for \$2.10.**

MYATT'S LINNAEUS RHUBARB. Early, large, tender and good quality. **Price: 2-yr., No. 1 plants, 30c each; 3 for 85c; 10 for \$2.50.**

FRESH FROM YOUR GARDEN EVERY YEAR

ASPARAGUS

Buy thrifty crowns grown by
BUNTINGS' NURSERIES, Inc., Selbyville, Del.

Mary Washington

The Blue-Blood of the Asparagus World. Extra heavy crowns, long fat roots, strong giant size, green color.

Originated by the U. S. Department of Agriculture, and has been considered the best variety of Asparagus grown. Commercial growers have been planting Mary Washington exclusively for years. Very strong grower, stock of giant size, green color, rich and tender. It is our opinion that the two principal good points of this variety are, that it is rust-resistant, also a stronger grower than any of the old standards of Asparagus. For this reason we have discontinued growing such varieties as Conover's Colossal, Barr's Mammoth, Giant Argenteuil, etc.

PRICE OF MARY WASHINGTON ASPARAGUS:

	25	50	100	250	1000	5000
Super Size, Extra Heavy	\$4.10	\$6.85	\$11.00	\$22.00	\$55.00	\$265.00

1-yr., No. 1 grade	1.50	2.50	4.00	8.00	20.00	95.00

ROBERTS' STRAIN MARY WASHINGTON

This new strain of Mary Washington (selected and developed by Mr. J. L. Roberts) is now being planted almost exclusively here in the east by commercial growers and canneries. Roberts' strain is true Mary Washington although through careful selection the new type produces larger tips and makes a better growth. For the past two years our supply has been sold early to large nearby planters. This season we have reserved a part of our stock for our mail order buyers. The supply is limited, and we recommend that you order early.

PRICE OF ROBERTS' STRAIN MARY WASHINGTON:

	25	50	100	250	1000
2-yr., No. 1 grade	\$3.00	\$5.00	\$8.00	\$16.00	\$40.00
1-yr., No. 1 grade	2.25	3.75	6.00	12.00	30.00

We are the largest growers of Asparagus plants in America. The seed from which our plants are grown is selected from a pedigreed field; it is hand-picked from the sturdiest stalks in the field, assuring you of the best strain of Asparagus possible when you buy Buntings' plants.

EBONY KING BLACKBERRIES

A New Upright Blackberry

Here's good news for Blackberry lovers. This grand new variety will produce an abundance of fruit. Most of the old Blackberry varieties have become sterile; that is, they will produce blooms which fail to develop into fruit. The new EBONY KING has been tested for several years, and is a sure-bearing variety. It is very hardy, having withstood temperatures of 22 degrees below zero. The berries are very sweet, and have the wonderful delicious Blackberry flavor. Bears annually and early in the season before hot weather sets in. Self-pollenizing. Supply of this variety is still limited, so order early. **Price: Heavy 1-yr., No. 1 plants, 10 for \$3.85; 25 for \$7.50; 100 for \$22.50.**

FIELD CULTURE—BLACKBERRIES AND DEWBERRIES

Plant in rows 7 feet apart with plants set 4 feet apart in the rows (1,555 plants to set an acre at given distances).

Plow a furrow about 5 or 6 inches deep or dig holes 6 inches deep and 6 inches square. Spread roots, fill hole with soil; firm well. Cut stock after planting approximately 2 inches above ground level. Let them grow and the following spring cut the new growth back one-third, leaving two-thirds of the season's growth for production of berries. After fruiting cut all fruiting canes out and burn them. Cultivate occasionally and follow same procedure each year, allowing about 6 to 10 canes on each plant to stand for fruiting each season.

Ebony King
Blackberries

Buntings'
Nurseries

Boysenberry

10 Plants for \$2.55

A cross between the California Loganberry, Raspberry and Blackberry. Just think of a berry that has a little of each of these fruits all in one giant, nearly seedless, beautiful wine colored berry, with a flavor that you will never forget.

Its size is unbelievable—two inches long is not unusual, three inches long not rare. Fifty of these plump, inch-thick marvels will fill a quart basket; a sight so remarkable people can't resist buying them! They are rare—they are unusual. The demand is so tremendous retailers can't get enough of them.

Buntings' hardy No. 1, strong-rooted plants bear big crops the second year. Do not miss planting some Boysenberries in your garden this year. **Prices: 3 for \$1.15; 6 for \$2.05; 10 for \$2.55; 25 for \$4.65; 100 for \$14.05; 250 for \$30.40; 500 for \$48.85; 1000 for \$85.00.**

Dewberries

LUCRETIA. Extremely productive. The berries are extra large, black in color; flavor rich, sweet and delicious. Dewberries are of the Blackberry family, but produced on a trailing vine instead of an upright bush, and bear earlier in the summer. Lucretia berries are firm and of excellent quality.

DEWBERRY PRICES:

No. 1 plants: 10 for \$1.80; 25 for \$3.30; 50 for \$5.70; 100 for \$9.90.

Sweet Cherry FAVORITES

BLACK TARTARIAN →

The Best Sweet Cherry

Here is the best, most dependable and widely successful of the sweet Cherries. Its great heart-shaped fruits (rich, dark purple hue) look irresistibly tempting. The sweet, mild flavor and rich tang have won it a nation-wide popularity both with commercial and home growers.

A Prime Market Favorite

For the big market trade hundreds of miles from orchards, the local fruit markets or fruit stands scattered all over the country, they offer a dependable yearly yield that is so sure to bring profit to the grower.

GOVERNOR WOOD. Light yellow with red cheek; tender, rich, delicious; very fine; large, roundish. June.

NAPOLEON. Light lemon-yellow, tinged with red. Late June.

SCHMIDT'S BIGGARREAU. Flesh tender, juicy, good flavor. Mahogany color. Middle of July.

YELLOW SPANISH. Ripens early in June. Fruit large, color yellow. Tree vigorous grower.

RED PIE CHERRIES

Large MONTMORENCY

The Universal Canning and Pie Cherry

These select record-breaking Montmorency trees develop into uniform, shapely specimens bearing heavy crops of very large fruit.

Fruit large, firm, ships perfectly. Bears very young, produces tremendous money-making crops and is successful everywhere.

Fruit Growers Consider This the Finest Sour Cherry In Cultivation

Because of its distinctive acid flavor, delightful in pies and preserves.

ENGLISH MORELLO. Tree small, round-headed, with distinctly drooping branches. Fruit three-fourths of an inch in diameter, color dark red. Flavor tart, good quality; excellent for preserving and pies. Freestone. Ripens in July.

EARLY RICHMOND. A leading sour Cherry, used extensively by canners, excellent for pies and preserves. Tree medium size, dense, upright-spreading. Fruit three-fourths inch in diameter, color light red, fruit thin-skinned, freestone. Ripens in June.

J. H. Hale

J. H. Hale

A QUALITY PEACH for Home and Orchard Grower

Freestone. The skin is deep crimson, smooth, tight and almost without fuzz. Fruit is very large, round, firm, golden yellow, sweet and melting; quality excellent. Ripens just before Elberta. A very good one!

O'Boy!

THE PERFECT PEACH

If you are looking for the largest, richest, most beautiful Peach in the world, here it is! Everyone who sees it exclaims in wonder, "O'Boy, what a perfect Peach." So it was named O'Boy. It is round and uniformly shaped. Skin glowing orange, blushed all over with rich, dark red, even before ripe. Flesh rich orange, bright red around the pit. The red color is retained in the canned fruit and juice.

Firm of flesh and skin. You'll want to can them exclusively for your fancy table use. Perfectly freestone and self-pollenizing. Bear heavily when three years old. Don't fail to plant O'Boy this spring.

ELBERTA

A CROWNING SUCCESS WITH THE ORCHARDIST AND HOME GARDENER

Everyone is familiar with the old reliable Elberta. Its attractive appearance, large size, uniformly shaped fruits are well known throughout the world. Universally planted—Elberta leads all other Peaches in number of trees producing fruit. Most popular Peach on the market. Ripens midseason, roundish with a pointed tip, thick skin; flesh yellow stained pink near the pit; juicy, firm but tender, good quality freestone.

SULLIVAN'S EARLY ELBERTA. An early ripening bud sport of Elberta. Size, color and shipping qualities identical with Elberta, but ripens about ten days earlier. A splendid all-purpose Peach.

BRACKETT. Large, late, deep yellow Peach, very highly flavored; freestone. Excellent for home use, and extensively planted in commercial orchards.

See Page 32 for prices.

Elberta

GOLDENEAST

(N. J. 88) Early Midseason

Ripens about fifteen days earlier than Elberta. A large, oval, firm, highly colored, yellow fleshed freestone Peach, rapidly gaining popularity with commercial growers. Originated at the New Jersey Experimental Station. An excellent variety for shipping or for home use.

Goldeneast

Golden Jubilee

GOLDEN JUBILEE

The "Beau Brummel" of Peaches

Unusually hardy, resists excessive cold; a sure cropper after severe winters and heavy frosts. Medium to large in size, ripens almost four weeks ahead of Elberta, and considered to be one of the best early ripening varieties. Fine flavor, yellow freestone, attractive color and fine texture. Profitable for market, excellent for home use.

VALIANT. Freestone. Fruit large, yellow blushed with red, with firm, juicy flesh of a very good quality. Ripens about two weeks ahead of Elberta.

VEDETTE. Freestone. Ripens a few days before Valiant. Fruit is large, roundish oval, yellow flesh. Ripens three weeks before Elberta.

Peaches

CRAWFORD'S EARLY.

Freestone. Large, oblong, yellow with deep red cheek; flesh yellow, juicy and rich, excellent flavor. August 1st to 15th.

CRAWFORD'S LATE. Ripens after Elberta. Freestone. High quality and very large; flesh deep yellow; skin yellow with broad, dark red cheek.

ROCHESTER. Has the habits and characteristics of the Crawford, but fully two weeks earlier. Yellow; freestone; good size; very sweet, fine flavor. Ripens middle of July.

SHIPPERS LATE RED. Follows Elberta in ripening. Skin yellow with attractive red coloring. Flesh yellow, juicy, sweet, pleasing flavor. Bears young; good late commercial variety. Freestone.

HALE-HAVEN A Premium Peach for Every Commercial Orchard. Ripens 2 Weeks Before Elberta.

Steadily gaining favor, because of its size, color, good shipping qualities and hardiness in bud.

This marvelous new Peach, an introduction of the Michigan State Experiment Station, is a cross between the famous South Haven and J. H. Hale. It's an aristocrat of the first order.

Extremely high color before ripening; withstands cold temperatures; very hardy; heavy bearer. A perfect freestone; yellow fleshed.

CARMAN. A very hardy, semi-freestone Peach, ripening about the middle of July; skin pale yellow with blush on sunny side; flesh white, tender, sweet and melting. Ships well. Best early market Peach.

Belle of Georgia

Belle of Georgia

A POPULAR WHITE PEACH

Large, attractive, white Peach with red cheek. Delicious flavor; one of the best market varieties. Very hardy, easy to grow. Home canners prefer Belle, and for some time it has been recognized as the best all-around white Peach on the market.

Belle ripens midseason; large size, freestone. The best white Peach of its season.

RIPENING ORDER OF PEACHES

Use this list for selecting varieties to provide you with fruit throughout the season. Varieties are listed in their order of ripening from the very earliest to the latest.

Carman	Hale-Haven	Elberta
Redhaven	Crawford's Early	O'Boy
Golden Jubilee	Sullivan's	Crawford's Late
Rochester	Early Elberta	Shipper's Late Red
Vedette	Belle of Georgia	Brackett
Valiant	J. H. Hale	White Heath Cling
Goldeneast		

See page 32 for prices.

Redhaven

WHITE HEATH CLING PEACH

Fruit extra large, creamy white, pink cheeked, and the flesh is white, tender, juicy and delicious. Ripens September 10th to 15th.

REDHAVEN

EXTRA EARLY, BRILLIANT COLOR, FINE FLAVOR AND GOOD SHIPPER. Perfect freestone, medium to large in size, flesh yellow, fine textured, sweet and of good quality. Smooth skin, almost fuzzless; brilliant red color, with creamy yellow background. Bears heavy crops. A profitable commercial variety, and excellent for home use where a good quality early yellow Peach is desired.

HARDY Apricot Trees

They Grow Like Peaches

APRICOT PRICES (Per tree)

	1 to 9 Trees	10 or more Trees
3 to 4 ft.	\$1.75	\$1.45
4 to 5 ft.	2.00	1.70
5 to 6 ft.	2.30	1.90

EARLY GOLDEN. Pale orange, juicy and sweet. A hardy, prolific bearer, ripening early in July.

MOORPARK. Orange-yellow fruit with red cheeks.

Early Golden Apricot

ORANGE QUINCE TREES

For Jelly, Jam and Marmalade

Its pre-eminence as a fruit for jellies and preserves makes the Quince a profitable tree for the fruit grower, the farmer or anyone having a small garden. Fruit is large golden yellow and of excellent quality; ripens early in September. Quince trees do not require much space, as they are of dwarf type, growing about 10 to 15 feet tall.

Orange Quince

Prices (per tree)	1 to 9 trees	10 or more trees
3 to 4 ft. strong trees	\$1.75	\$1.45

EXTRA HARDY Chinese Chestnut

Blight-resistant trees that bear big, tasty Chestnuts the second or third year after planting. A beautiful ornamental tree. Plant in pairs for cross-pollination. Price: 2 to 3 ft., strong trees, \$2.00 each.

HORSE RADISH

MALINER KREN. Very hardy, and thrives best in cool, moist earth, but will thrive well on any soil that produces crops of any kind. Plants are vigorous, and roots grow to a large size. Price: 1-yr., No. 1 plants, 10 for \$1.50; 25 for \$3.00; 100 for \$10.00.

NECTARINES

NECTARINE PRICES (Per tree)

	1 to 9 Trees	10 or more Trees
4 to 5 ft.	\$2.00	\$1.70
5 to 6 ft.	2.30	1.90

HUNTER. Large, round, yellow freestone. The melting, juicy texture of the fruit, and its delicious flavor, furnishes one of the most delightful fruits for eating during the summer.

NUT TREES

Nut trees are valuable, useful and ornamental. No home should be without them. They are valuable as shade or ornamental trees, as well as for the nuts they produce.

PECAN. Strong grower. Very large, thin-shelled nuts, easily opened. Price: 3 to 4 ft., grafted, \$3.75 each.

ENGLISH WALNUT. A fine, lofty growing tree with handsome spreading head. Very hardy, will stand extreme cold. Produces abundantly. Prices: 3 to 4 ft., grafted trees, \$3.75 each.

APPLES

DOUBLE RED STAYMAN WINESAP

Carries at least double the color of the original strain of Stayman Winesap, otherwise exactly the same growth, hardiness, etc. We have discontinued propagating in our nurseries, also growing in our orchards, the regular variety of Stayman's Winesap, in view of the fact that we get the same quality in Double Red Stayman with double the color which sells the fruit for more money.

Double Red
Stayman
Winesap

YELLOW DELICIOUS

This alluring Apple with the strong appetite appeal never fails to capture the elusive nickel on the fruit stands. It is a national favorite, commanding highest prices on the market. A bright golden yellow, firm, crisp, juicy Apple. Tree bears when young, and yields heavily.

GRIMES GOLDEN

Very large, skin golden yellow, flesh tender and crisp. A very good fall Apple. Grown in all sections of the country.

Yellow
Delicious

(See page 37 for prices.)

LODI (Improved Yellow Transparent)

Originated by the New York State Experimental Station. After being tested commercially over quite a large area, it is now rapidly gaining popularity. A summer Apple ripening about the same time as regular Transparent; however, much larger and more firm than Transparent. Fruit good size, skin clear, white to pale yellow in color. Flavor very good. An excellent cooking Apple. Tree a very strong grower.

WILLIAMS EARLY RED

Among the earliest to ripen, and the largest of all early Apples. The trees come into bearing when quite young, producing freely and steadily. The Apple is large, with tender, crisp, white flesh, juicy and slightly tart. This big red Apple hits the market at a time when people are hungry for fresh fruit. Recommended for both home use and commercial markets.

ALL RED DELICIOUS

This improved new Red Delicious colors a very rich red three to four days in advance of any other strain of Delicious Apples. It is not only a commercial Apple, but is every bit as well adapted to home gardens. A superior, large uniform Apple, rich in flavor, with a characteristic five-knob appearance that makes it attractive in every market.

HYSLOP CRAB APPLES

Large, handsome, crimson splashed with dark red. Very prolific.

Shotwell
All Red
Delicious

For Profit — Apples — For Health

Solid Red
Rome

Solid Red Rome

A brilliant, solid red that produces over 50 per cent more extra fancy Apples for color grade than common Rome Beauty. A beautiful Apple, identical in quality, productiveness and other characteristics with the regular Rome Beauty, except for a greatly superior color.

Double Red Jonathan

Insure your profits from Jonathan by planting this new sport that will give you bright red colored fruit about two weeks earlier. Fruit medium to large, brilliant red, juicy, fine grain, tender and very highly flavored. Bears young; produces heavy crops every year.

Double
Red Jonathan

Red
Yorking

Red Yorking (U. S. Plant Pat. No. 125)

A sport from its famous daddy, York Imperial. It has the same fine and dependable qualities except that its skin is thicker, it does not scald in storage, and ripens to a solid cherry-red color. Shows color five weeks earlier than regular York. An excellent shipping Apple. Plant these early coloring Red Yorkings and get into the market with a sure profit-making new variety that finds a ready sale.

APPLE TREE PRICES (Per Tree)

	1-9 Trees	10-49 Trees	50-99 Trees
2-yr., 6 to 7 ft., Quick Crop	\$2.85	\$2.45	\$1.75
2-yr., 5 to 6 ft.	1.80	1.55	1.10
2-yr., 4 to 5 ft.	1.50	1.20	.90
2-yr., 3 to 4 ft.	1.15	.95	.75

Fruit growers who are interested in planting trees in large numbers, write for special prices.

Buntings'
Solid Red
McIntosh

Solid Red McIntosh

A selected bright red sport of the reliable old McIntosh. Flesh white, tender, juicy, sub-acid. Tree hardy, vigorous and healthy. A leading commercial variety especially desirable for fancy trade.

Quintuplet Apple

FIVE Leading Varieties on ONE TREE

The Famous "5-n-1"

Here's the opportunity for those with limited space to have five mighty desirable varieties of Apples, all budded on one tree, for a little more than the cost of one tree. Requires only a 25-foot space when fully grown. Each tree is budded to the following varieties:

YELLOW TRANSPARENT
(First early)

RED DELICIOUS (Fall and winter)

YELLOW DELICIOUS (Fall and winter)

RED JONATHAN (Fall and winter)

ANOKA (Second early)

Price: 2-yr., No. 1 trees. 11/16 in. cal., 5-7 ft., \$3.00 each.

No Trouble to Order from Buntings' Read About Our Shipping Season Terms and Guarantee

Be Sure to get Your Order in Promptly for Early Spring Shipment

SHIPPING SEASON

We begin filling orders in the fall as soon as our nursery stock is properly matured or ripened for transplanting, usually about October 1st, and continue digging and shipping during the entire fall and spring months. The planting season in the spring is usually over by June 1st, depending upon weather conditions and type of stock involved.

GUARANTEE

We guarantee to dig, pack and ship good, clean, thrifty, well grown trees and plants, in good growing condition. Failure may result from improper planting, lack of moisture, frost, floods, over-fertilization, etc., and we cannot guarantee continued growth after stock is planted on customer's premises because this is entirely beyond our control. Claims, if any, for damages or inferior stock, must be made within five days after arrival.

TERMS

Cash with order, but orders will be booked if one-fourth value is received with order, remainder to be sent before time of shipment. Remit by money order, registered letter, check or draft. Use our convenient order blank inclosed.

Prices quoted herein are f. o. b. Selbyville. We do not prepay transportation. Express shipments are forwarded collect, the customers paying the delivery agent actual cost upon arrival. To avoid C. O. D. fees on parcel post shipments, we notify the customer the amount due by mail after shipment is made and request remittance.

Tips on Planting Distances

Number of Trees Required to Set an Acre at Various Distances

		Trees per Acre	
Trees planted	35 feet apart each way	35	
Trees planted	30 feet apart each way	49	
Trees planted	25 feet apart each way	69	
Trees planted	20 feet apart each way	109	
Trees planted	18 feet apart each way	137	
Trees planted	16 feet apart each way	170	
Trees planted	14 feet apart each way	222	
Trees planted	12 feet apart each way	302	
Trees planted	10 feet apart each way	435	
Trees planted	8 feet apart each way	680	
Trees planted	6 feet apart each way	1,210	
Trees planted	4 feet apart each way	2,722	
Trees planted	3 feet apart each way	4,840	

Number of Plants Required to Set an Acre at Various Distances

1 x 1 ft.	43,560	4 x 2 ft.	5,445
2 x 2 ft.	10,890	5 x 1 ft.	8,712
3 x 1 ft.	14,520	5 x 2 ft.	4,356
3 x 1½ ft.	9,900	6 x 1 ft.	7,260
3 x 2 ft.	7,260	6 x 2 ft.	3,630
4 x 1 ft.	10,890	7 x 1 ft.	6,222
4 x 1½ ft.	7,260	7 x 2 ft.	3,111

Multiply the distance in feet between the rows by the distance the plants are apart in the rows, and the product will be the number of square feet for each plant or hill, which, divided into the number of square feet in an acre (43,560), will give the number of plants or trees to an acre.

Distance for Planting—Square Method

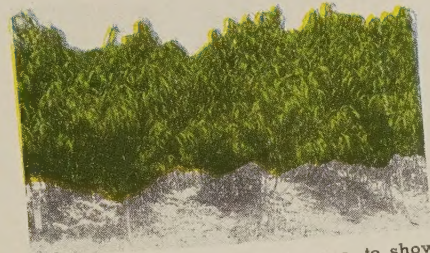

Distance for planting different kinds of fruit, trees, etc., square method:

Peach. 20 feet apart each way.
Standard Apple. 35 feet apart each way.
Cherry, Sour. 18 feet apart each way.
Cherry, Sweet. 20 feet apart each way.
Standard Pear. 20 feet apart each way.
Plum. 20 feet apart each way.
Grape Vines. Rows 8 feet apart, 8 feet apart in row.
Blackberries. Rows 6 feet apart, 6 feet apart in row.
Black Raspberries. Garden culture, 4x3 ft.
Black Raspberries. Field culture, 7x4 ft.
Red Raspberries. Garden culture, 4x3 ft.
Red Raspberries. Field culture, 7x3 ft.
Dewberries. Rows 4 feet apart, 5 feet apart in row.
Strawberries, Field Culture. Rows 4 feet apart, 1½ feet apart in row.
Strawberries, Garden Culture. Rows 2 feet apart, 1 foot apart in row.
Asparagus, in Field. Rows 6 feet apart, 2 feet apart in row; plant 6 inches deep.
Asparagus, in Beds. Rows 1½ feet apart, 1 foot apart in row.

Cherry trees that you will be proud to plant.

Partial view of a block of Norway Maples growing in our nurseries. Note sturdy trunks, symmetrical tops.

An excellent block of well grown Roses.

One of our large fields of Asparagus for shipment this season. We grow 3 to 5 million Asparagus crowns each year.

135,520 square feet, or more than three acres of floor space, in modern, regular and cold storage buildings are owned and used by Buntings' to assure proper and prompt handling of trees and plants for their customers.

One of our large fields of excellent quality Strawberry plants.

A Word from Our President

The success of any new settlement in any new land invariably started from the products of the soil; this will always be true. Hence, real estate will continue to be our best asset when needed most, which is in times when all other possessions of importance have declined in value.

Our homes are the base of what we are as a nation, and planting of fruits and flowers will always be foremost in mind and of greatest value. The results of such plantings are profitable because they produce the basic necessities of life—food and shelter—two of the most important means to comfort, health and contentment. There never has been and never will be a time when trees and plants (and their product) will not be a necessity of first consideration in life.

We solicit your order, and assure you it will at all times receive our careful attention.

CLAYTON A. BUNTING, President.

Pyramidal Arborvitae. Large Specimen plants for immediate effect.

California Privet. Well developed plants for immediate effect.

Rhubarb growing in our nurseries. Our climatic conditions are ideal for Rhubarb production.

The photographs shown on this page indicate the excellent stock we are growing for our customers this season.

Select your planting needs from this catalog. Be assured of receiving well developed trees and plants from one of the country's largest growers.

1400 ACRES

More than 1400 acres of fertile soil are cultivated annually to trees and plants at Buntings'.

Approximately 250 men, experienced and highly trained, make up this organization.

Buntings' trees are propagated, grown and handled by an experienced organization, under an exact system and proper methods.

A small section of our field of Peach trees.

New Dwarf Pears

PRODUCE BIG DELICIOUS FRUIT

These attractive small trees require very little space, and often bear the year after planting. Fruit is of best quality, and often larger than from standard trees. Foliage is attractive for landscape planting. Plant two varieties for cross-pollination.

Varieties:

BARTLETT

CLAPP'S FAVORITE

Price: 2-yr., 3-4 ft., \$3.00 each; 3 for \$8.25; 10 for \$25.00.

*Full Size Apples
and Pears on
Dwarf Trees*

New Dwarf Apples

ATTRACTIVE AND PRACTICAL

These little trees can be planted 15 to 18 feet apart, and are only 12 to 15 feet high at maturity. Most varieties start producing fruit the first or second year after planting, and the fruit produced is as large or larger than that from standard trees. They are a valuable addition to any lawn or garden. Plant two or more varieties for pollination.

Varieties:

GRIMES GOLDEN

RED DELICIOUS

McINTOSH

RED STAYMAN

Price: 2-yr., 3-4 ft.,
\$3.00 each; 3 for \$8.25;
10 for \$25.00.
